BAD FAITH SHOWN BY GERMANY

PARIS, June 26.—In a note characterizing the scuttling of the German fleet at Scapa Flow and the burning of French flags which Germany was to restore, as "signal acts of bad faith," the allies notified Germany that "when investigations are completed into all the circumstances they will exact the necessary reparation."

The note added: "Evident repetitions of acts like those have a very unfortunate effect upon the future operation of the treaty which Germany is about to sign," and asserted that the acts were a deliberate violation of the armistice and a breach in advance of the conditions of peace.

PARIS, June 26.—Efforts are being made to arrange the signing of the treaty at 3 o'clock Saturday afternoon. The council of three apparently is satisfied with the semi-official assurances that the Germans will be on hand.

CROWN PRINCE MAKES ESCAPE FROM HOLLAND

PARIS, June 26.—Frederick William Hohenzollern, the former German crown prince, has escaped from Holland and made his way into Germany.

WASHINGTON, June 26.—Confidential reports that the former German crown prince and probably the former emperor may attempt to re-enter Germany after the signing of peace were received by government officials recently. This became known following the receipt of an Associated Press dispatch saying the crown prince had escaped. International law authorities are of the opinion that Holland may be held accountable by the associated powers for his escape.

It was assumed that the crown prince must either have had encouragement from Germany to refuse to surrender him to the associated powers for trial under the terms of the treaty, should he be included in the proscribed list or that a coup is contemplated involving the conservative elements and officers of the army who are strongly opposed to the signing.

PARIS, June 26.—News of the former crown prince's escape stirred the peace conference circles. It is not felt that he is a figure around which the reactionaries and monarchists will gather enthusiastically. Nevertheless, the event is regarded as of considerable significance in view of the other German recalcitrancy.

INCREASE FUND FOR AVIATION

WASHINGTON, June 26.—The senate has approved an amendment to the naval appropriation bill increasing the fund for aviation from \$15,000,000 voted by the house to \$30,000,000. The senate appropriations committee, in reporting the sundry civil appropriation bill, increased the shipping board's building program from \$276,000,000 to \$491,000,000. The house appropriation of \$300,000 for salaries and expenses of the members of the commission was eliminated.

PARIS, June 26.—The French government has decided that the official victory celebration by France will be on July 14, Bastille Day, the principal French holiday. It also is the anniversary of the beginning by the Germans last year of their last drive toward Paris, which ended so disastrously for them.

ELLISVILLE, Miss., June 26.—John Hartfield, a negro, who confessed that he was the assailant of a young white woman, was lynched by a mob.

President Woodrow Wilson may come to see the great Divide and make the acquaintance of the people of Southern Nevada who would be delighted to have the chief executive of the nation for their guest. The itinerary could be arranged easily, according to Joseph W. Hutchinson, chairman of the executive board of the Divide-Tonopah Chamber of Mines who is pressing the subject earnestly in order to secure a change from the beaten path of travel before the dates on the Pacific coast are all taken up. Last evening J. Grant Crumley, vice-chairman of the chamber of mines started the ball rolling in the direction of the White house by sending telegrams to Jos. P. Tumulty, private secretary to the president, and the Nevada congressional delegation. Senator Henderson was first to reply with a cordial endorsement of the suggestion and assurance of his hearty co-operation.

The first step in the right direction was to engage the services of a designer to prepare a design for the handsomely chased silver-gold invitation card so that the work may proceed just as soon as it is known that the president can favor Tonopah with a visit. The telegraphic correspondence follows:

Tonopah, Nev., June 26.

AMERICAN LEGION THANKS PUBLIC FOR PATRONAGE

The dance of the American Legion last night at the Airdome was well attended by citizens generally who found they could dance without having to compete with the handicap of men in khaki. This condition was brought about by the Legion resolving that members appear at the dance in civilian habiliments so that they would not be monopolized by their fair guests to the exclusion of those who had not been in the service. The only exception was a bluejacket who had not been home long enough to dig up his "cits." The members of the Legion wish to express their thanks to everybody who contributed to the evening's enjoyment.

ITALY WORSTED IN THE TREATY BY TWO ALLIES

ROME (Wednesday), June 26.—The position of Italy is less favorable now than at the beginning of the peace conference because the Italian delegation approved all that England and France asked in Asia and Africa, while those powers have not acknowledged the claims of Italy. Foreign Minister Tittoni declared in an address to the senate: "Holland, if this situation should continue, England and France would be at peace and free to demobilize and heal their wounds while it would be impossible for Italy to do this because she would not be at peace. He said he hoped the rights of Italy would be recognized because of her enormous sacrifice in blood and wealth. He called for full unconditional support for the new government by parliament and country, regardless of party."
